TELSTAR MATH LEAGUE HAS COMMENDABLE RECORD IN FIRST YEAR COMPETITION

The Telstar Math League has just completed its first season of competition in the state-wide Pi-Cone Math League. The performance of the Telstar team was very commendable since they were competing against schools two and three times as large in some instances. It is expected to have an even better year in 1971-72.

Two sophomores, Roger Buck and Sharon Dombkowski, were 6th and 7th respectively, out of all sophomores in the league. Paul McInnis, a senior, will receive a trophy from the Pi-Cone Math League for being Telstar's individual high scorer for the year.

31 TELSTAR 7th GRADE STUDENTS SIGN UP FOR BABY-SITTING COURSE

Thirty-one students in the seventh grade at Telstar Regional High School have signed up for the Baby Sitting Course, sponsored by the Bethel Health and Service Council beginning April 26.

There will be six sessions involved in the course as follows:

Summaries of the course will appear in the Bethel Citizen to acquaint the parents in the area with the material covered in order that they may fully co-operate with the newly groomed sitters.

Requirements of the course will be:

- a. Attendance at all but one class; b. Score 70 or better on the test at the last class; c. A neat notebook to be passed in at the end. The notebook is to be a collection of everything passed out—with the hope that if the material is held together it will be kept for future use; d. Spend two hours with a child. Write a paragraph summary.

Duane Scribner pitched a two-hitter Tuesday as Telstar turned back Jay, 7-5 in a Mountain Valley baseball opener played at Livermore Falls. He gave up nine walks as did Tigers starter and loser Eric Smith. The Rebels jumped into a 3-0 lead in the first inning on two hits and four bases on balls and added single tallies in the second, third, fourth and sixth frames. The Tigers picked up two tallies in the second and came up with three scores in the fifth.

Steve Blake and Dana Melville each had a pair of hits for the winners.

PLANS FINALIZED FOR P. T. F. FAMILY NIGHT FAIR

Final plans for the "Family Night Fair," to be held April 20 at Crescent Park School, include a baked bean supper from 6 to 7 o'clock. Admission will be one dollar for adults and thirty-five cents for children, grade 6 and under. Tickets will be sold at the door only.

Other events include door prizes donated by local businesses; awarding of a 30-cup percolator; movies; silhouettes made for you; fortune telling, for adults only, by Mrs. Malcolm Gould, Sr.; a food sale; balloon girls; games to be run by the Telstar Girls Athletic Association; lemonade sale; and a penny auction.

Items for the penny auction are badly needed. Please leave new or unused items such as powder, candy, knick-knacks, food, toys, stationery, etc., at Ethel Bisbee School with Caroline Gould by Monday, April 20. All parents not helping in some way with the Fair are asked to call the following people to volunteer donations for the food sale: Bethel, Annabelle Lee; Locke Mills, Leatrice Chase; East Bethel, Bettyann Hastings; West Bethel and Northwest Bethel, Micheline Roy. Please call by Friday, April 23.

It is hoped everyone will support this event for its two fold purpose: fun for all and raising money for the many worthwhile items the PTF hopes to provide for Crescent Park and Ethel Bisbee Schools.

COMMENTS FROM THE OFFICE OF THE TOWN MANAGER

An assessor was in town Monday inspecting new and renovated buildings. We expect him back again soon to continue his work.

We do not expect a large increase in valuation this year as there has not been any commercial or industrial construction the past year. The most of the new buildings we have this year are one and two-car garages. There have been very few new houses built. This is typical of the national trend due to high interest and construction costs. House trailers are becoming a common housing unit in town. We will have approximately 45 trailers this year as compared to 32 last April 1. These create our greatest problem of all the assessing as there are no statewide standards for guides. Everyone has a different idea as what would be a fair tax. Also each make has many models which vary in value.

The increase of 25% in land value will give us a two mill increase instead of a four mill increase in our tax rate this year. We do not expect there will be enough change in valuation to prevent a two mill increase over 1970.

LARGE VISITOR ATTENDANCE AT S. A. D. 44 BOARD MEETING ON MONDAY EVENING

Attendance of about 150 spectators at the regular meeting of the S. A. D. 44 board of Directors caused transfer of the session from the Lecture Hall to the cafeteria at Telstar Regional High School Monday evening of this week.

Several of the spectators spoke in favor of John Applin, Telstar math teacher, who as a result of action at the April 5 board meeting, was not offered a contract for the 1971-72 school year. Other matters covered were: a suggestion that the board work on the educational philosophy of the district and not on personalities; support of Lawrence Arsenault as Science Department chairman; abolishment of board executive sessions.

A petition by 233 Telstar students in support of Mr. Applin was presented to the board. A student asked, since the group had heard support for Mr. Applin, what were the board's feelings. Robert J. Gerardi, superintendent, replied that Mr. Applin has requested and shall receive reasons, and it was not appropriate for the board to make this reasons public knowledge.

Among those speaking in the citizens' portion of the meeting were: Stanley Davis, Randy Littlefield, Mrs. Thomine Desmazures, Mrs. Phyllis Dock, Dexter Stowell, Mrs. Stanley Davis, Irving Cummings, Mrs. Ann Farrow, Donna Rosenberg, Mrs. Joan Henley, Roger Buck, Mike Davis, Mrs. Dorothy Russo, and A. James Fluke.

The board approved a revised teacher evaluation by students document to be used in all departments at Telstar for use in self-evaluation at the department level for the balance of this school year only. The board rescinded a motion of the April 5 meeting to implement a similar document as a pilot project in the English department.

The group approved a school calendar for the 1971-72 school year. Final approval was granted a Resolution Providing for Civil Defense Planning, as well as a policy governing student dress.

Final approval was granted a policy on regulations concerning the use of school facilities by non-school groups.

The board approved Mr. Gerardi's nomination for the following for the 1971-72 school year: Mrs. Nancy Chadbourne, French and Spanish; Telstar: Mrs. Victoria Meisner, Kindergarten Remedial Reading, Andover Elementary School; Paul Raymond, grade 3, Andover Elementary School. Also approved was the nomination of Brian Flynn as principal of Telstar Regional High School, effective July 1.

Mrs. Chadbourne lives in Harrison, and graduated from Bates College with a major in French and a minor in Spanish. She has a master's degree in French education from Harvard University. She has taught at Oxford Hills for the past two years. Mrs. Meisner will graduate from the U. of M. Farmington in June and has done student teaching at Andover and Ethel Bisbee Schools.

Mr. Raymond will graduate from the U. of M. Farmington in June. Mr. Flynn served as assistant principal at Telstar for about a year and a half and has been acting principal at the school for the past two months. Holding a bachelor's degree, and a master's degree in administration, he is currently enrolled in the certificate program.

EVANS NOTCH RANGER DISTRICT TO PARTICIPATE IN Y. C. C. PROGRAM

John C. Anderson, District Ranger, has announced that the Evans Notch Ranger District of the White Mountain National Forest will participate in the Youth Conservation Corps (YCC) program for young Americans this summer.

The Youth Conservation Corps, as established by Congress, is a 3-year pilot program. Students between 16 and 18 years of age will be provided gainful employment during the summer in an outdoor atmosphere while doing valuable work with our natural resources. The program will create an excellent opportunity for understanding and appreciating our natural environment and heritage.

The Evans Notch Ranger District headquartered in Bethel, will employ five YCC enrollees. Bonnie Hutchinson, Bethel; David Holt, West Paris; George Gibson, Bethel; Howard Whitten, Andover; and Renetta Nobles, Kinston, N. C., were selected from over 30 applicants. The Forest Service regrets very much that it can't extend this opportunity to all who are interested.

However, a successful program could provide similar job opportunities for others in the future.

Don Feeney, Bethel, will supervise the field activities of this program during the summer for the Forest Service. The work to be done by these young men and women is entirely outdoor oriented. Tasks will include recreation area maintenance, trail improvement, sign painting, boundary marking, fish stocking, and other outdoor duties.

After the award ceremony and pictures, refreshments will be available.

NEWRY TAX RATE .009 LOWER THAN YEAR AGO

The assessors of Newry have completed the valuation and set the tax rate at .071, on an assessed valuation of \$390,240. This year's rate is .009 less than the rate for 1970. Total tax commitment for 1971 was \$42,462.04, compared to \$44,592 for 1970.

Total assessed valuation was \$40,490 over last year, due in part to new property, and in part to property omitted from last year's total and listed as supplemental for 1970.

The county tax for 1971 was \$146 less than last year. This, together with a decrease in appropriations at the annual town meeting and an increase in valuation resulted in the decrease in the tax rate, which will mean a decrease of \$9 per thousand assessed valuation in the 1971 tax bills.

Christian Science
Opportunities for progress will be emphasized Sunday at Christian Science Church services.

"And they that be wise shall shine as the brightness of the firmament; and they that turn many to righteousness as the stars for ever and ever," one of the Scriptural verses in the Lesson Sermon on "Probation After Death" states.

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy it is stated that we read: "Progress takes off human shackles. The Law is not a yoke to the infirm; advancing to a higher

plane of action, thought rises from the material sense to the spiritual, from the scholastic to the inspirational, and from the mortal to the immortal."

All are welcome at First Church of Christ Scientist, Main and Tenth Sts., Berlin, N. H. The service begins at 11 a. m.

"The Truth That Heals" is broadcast each Sunday over station WMOU, Berlin, N. H., at 8:15 a. m.

A Christian Science Reading Room is now open in the business district in Berlin, N. H., at 124 Main St., from one to four every Tuesday, Thursday and Friday. The public is warmly invited to attend.

S. A. D. 44 DIRECTORS MEET

continued from Page One
of advanced study program at the University of Maine.

Also granted approval were the following nominations for extra-duty positions for the 1971-72 school year:

Department Chairmen: Ralph Niemi, Business Education; Mollie Bryant, English; Felix Otero-Otero, Foreign Languages; Thelma Domkowski, Home Economics; Floyd Keniston, Industrial Arts; Theodore Davis, mathematics; Richard McCann, Social Studies, drug counselor; Timothy LaVallee, Physical Education, skiing, athletic director.

Priscilla Holte, Director of Pupil Personnel Services; Charles Taylor, J. V. Basketball; David Tripp, Production Advisor; Timothy Kersey, Track; A. James Flske, Student Council; Dan Hannon, Intramurals; Glenn Bangs, Jr.-Sr. High Bands, and Chorus.

With regret, the directors accepted the resignations of Mrs. Frances Bennett and Mrs. Elizabeth Wight. Both are retiring after many years of service in the area schools. Currently Mrs. Bennett and Mrs. Wight are at the R. C. Foster School in Newry.

John Trivward, Telstar Student Council representative, was asked how the Council viewed the card playing that goes on occasionally during students' free time at Telstar.

He said that the Council did not see this as a problem, as the card playing has diminished considerably over the last year, and further, they felt that the few students who still play cards would get into a great deal more trouble if they did not have this opportunity. After some discussion of the matter, he indicated that he would go back to the Council to discuss the kind of image this presents to visitors who enter the building.

Mr. Gerardi advised the board that they would have to go into executive session to discuss the report of the fact finders pursuant to negotiations with the M. S. A. D. 44 Education Association.

RESOLUTIONS OF RESPECT
Where as Our Heavenly Father of the Great Grange above has called our esteemed brother, William E. Graves, Jr., to where there is no more suffering or pain:

Where as, he was a faithful member, serving as Master of our order and always ready to assist in the welfare of the Grange,

Where as, the example he set should inspire us to carry on the noble precepts of our order,

And where as, his presence will be missed among our members:

Therefore be it resolved that a copy of these resolutions be spread upon our records, a copy sent to the bereaved family, and a copy sent to the Bethel Citizen for publication.

NEW INVESTMENTS
IN MAINE'S ELECTRIC UTILITIES

...and that shows confidence!

Since March, 1968, investors have displayed con-

fidence in Maine electric utilities and the

State's economic future by providing \$264 million for

new construction for CMP and the two Maine companies

of which CMP is a major sponsor.

By the end of next year this new construction in-

vestment in CMP, Maine Yankee Atomic Power Com-

pany and Maine Electric Power Co. Inc. (MEPCO) will

have totaled over \$210 million.

Investor-owned electric utilities, with the help of the

State's economy by constructing new generation, trans-

mission and distribution facilities and by providing new

jobs and more valuable property. Customers are assured

of an adequate and reliable supply of electrical energy

for their present and future needs.

A carefully planned schedule to maintain reliable

service and meet new demands has been established

with coordinated efforts of Maine electric utilities.

What has this new construction investment meant?

1. MEPCO has completed more than 100 miles of an extra high voltage

(345,000 volt) transmission line in the first segment of a grid that ties New

England and eastern Canada, putting Maine in the middle of two large and growing

power pools, not on the end of the line.

2. MAINE YANKEE, an \$55,000,000 nuclear power plant, is more than 70

percent complete and on schedule for 1972 operation. Costing \$200 million,

this is the largest single industrial project in Maine's history.

This project already has provided a \$42 million stimulus to the Maine economy.

More than 1000 workers, mostly Maine people, are employed on this job.

3. CMP, since March 1968, has devoted \$48 million in new investments to

expand its own generating, transmission and distribution facilities in Maine. These

improvements include a computerized bulk power dispatching center, a \$48,000

volt tie line with the east of New England, two new 22,000 kilowatt gas turbine

generators, and others.

MAINE ELECTRIC UTILITIES ARE CONTINUALLY PLANNING FOR YOUR

ELECTRICAL NEEDS, BOTH NOW AND FOR THE YEARS TO COME.

NEW INVESTMENTS
IN MAINE'S ELECTRIC UTILITIES

...and that shows confidence!

Since March, 1968, investors have displayed con-

fidence in Maine electric utilities and the

State's economic future by providing \$264 million for

new construction for CMP and the two Maine companies

of which CMP is a major sponsor.

By the end of next year this new construction in-

vestment in CMP, Maine Yankee Atomic Power Com-

pany and Maine Electric Power Co. Inc. (MEPCO) will

have totaled over \$210 million.

Investor-owned electric utilities, with the help of the

State's economy by constructing new generation, trans-

mission and distribution facilities and by providing new

jobs and more valuable property. Customers are assured

of an adequate and reliable supply of electrical energy

for their present and future needs.

A carefully planned schedule to maintain reliable

service and meet new demands has been established

with coordinated efforts of Maine electric utilities.

What has this new construction investment meant?

1. MEPCO has completed more than 100 miles of an extra high voltage

(345,000 volt) transmission line in the first segment of a grid that ties New

England and eastern Canada, putting Maine in the middle of two large and growing

power pools, not on the end of the line.

2. MAINE YANKEE, an \$55,000,000 nuclear power plant, is more than 70

percent complete and on schedule for 1972 operation. Costing \$200 million,

this is the largest single industrial project in Maine's history.

This project already has provided a \$42 million stimulus to the Maine economy.

More than 1000 workers, mostly Maine people, are employed on this job.

3. CMP, since March 1968, has devoted \$48 million in new investments to

expand its own generating, transmission and distribution facilities in Maine. These

improvements include a computerized bulk power dispatching center, a \$48,000

volt tie line with the east of New England, two new 22,000 kilowatt gas turbine

generators, and others.

MAINE ELECTRIC UTILITIES ARE CONTINUALLY PLANNING FOR YOUR

ELECTRICAL NEEDS, BOTH NOW AND FOR THE YEARS TO COME.

GREENWOOD CITY

— Mrs. Collette Morgan, Corres. —

The week we had two days of spring that came and went but those two were welcome. All nature seemed to rejoice for at five in the morning I heard the call of the robin. "To then I fling all winter thoughts away and let my heart with every robin sing." Phoebe was telling me he, too, had arrived. He called his name again and again. The squawk of the grackle and the coo-coo of the red wing near the pond proclaimed they too were up early.

I lifted my head from my pillow to look toward the mountains. It was clear and beautiful and the breeze through the window soft and fresh.

Before "summer" was over the swallows arrived and it seemed so natural to see them fighting over the bird houses. With the return of the cold and another winter they disappeared.

I was sore up and from our window at breakfast we watched an otter on the ice as playful as a kitten. Taking turns with the binoculars although he was clearly visible anyway, we watched until he slid into the water for the last time and disappeared underneath the ice.

Another arrival was the blue heron, flying close to the water, going down pond.

The ascending sun began to touch our mountain across the valley and I know the shimmering seeds were turning aside their winter shrouds. Across all the land colorful patches of another spring was moving on wings of song.

Motionless clouds reflected their presence, while over all was the pink of the morning.

We always look to note any change and to see just the simple things as, "Isn't that an open spot around those bushes on the far shore?" or "Here comes Mr. Rat with his breakfast, too."

A flock of geese flew over and looked a salute from the blue, high up, but if they noticed the sparkle of the water in its frame of white they weren't interested. Gray and graceful they fled on.

My crozuses are so pretty and the best described by Frank P. Fletcher from his poem "First Crozuses."

They are as earth's first rainbows:
Pale promise of new life they bring,
Tough they stand encased in snow,
These sturdy heralds of young spring.

Go with another spring, one well

"THE COST OF LIVING IS DOWN"

Ordinarily making the above statement would leave us open not only to strong criticism but also to doubts about our sanity. However, what we mean is — "The cost of staying alive," is down. And, this is very true. Hospital stays are usually very short, even for surgery and child-birth, compared to just a few years ago.

Another reason the "Cost of Living" is down is that the new medicines that we are now stocking in the pharmacy are more potent and more specific. This means that with most illnesses your doctor can prescribe drugs that will help you to recover faster and less time from your regular work routine. We anticipate that the cost of staying alive will continue to decline.

Due to the increased number of prescriptions and in order to keep up good service, it would be to our mutual advantage, if you would please phone in to fill prescriptions. — Thank you.
